FRONT

This technical diagram illustrates the internal structure of a window frame assembly. It shows a cross-section of the frame, the sash, and the various mechanical components that facilitate its movement. Key components include the frame, sash, rollers, hinges, and a balance system. The diagram is labeled with various parts and their functions, such as 'Frame', 'Sash', 'Rollers', 'Hinges', and 'Balance System'. The assembly is shown in a partially open position, with arrows indicating the direction of movement. The diagram is a detailed line drawing, showing the internal structure of the frame and sash, and the various mechanical components that facilitate its movement.
